

Home School Equine Education Program

Horse Haven at Bear Creek invites home schooled kids of all ages to experience safe and fun equine educational classes.

Here are just a few of the educational experiences that your student(s) will enjoy during each one hour class:

- Horse anatomy and physiology
- Horse movement and motion (mini-lessons)
- Grooming and hoof care
- Tack and equipment
- Stable maintenance
- Horse body language
- And much, much more...

Over the course of 12-weeks, each child will learn and practice skills in responsibility, organization, partnership, character building and leadership. Kids will explore and engage in a different topic each week. Team building skills will be emphasized as students work together on projects. Parent/Teacher participation in activities is encouraged, but not required.

\$35.00/hour per child
(occasional material fees may be required for special projects)

Sign-up is limited, so please contact us to learn more...come to the ranch to
experience lessons to last a lifetime!

Call us to make an appointment to discuss this unique learning opportunity and to schedule an evaluation. You won't regret it. Visit our website for additional clinics, workshops and classes available at our facility.
